

PRESS-RELEASE

Berlin, 12.10.2015

We are pleased and honored to state that our documentary film „**UNFILTERED BREATHED IN - The Truth about Aerotoxic Syndrom**“ by Tim van Beveren was awarded as „**Best of Genre**“ in the documentary film section of the 2015 **Great Lakes Film Festival**, Pennsylvania, USA.

The German language version of this originally in English language produced and released investigative documentary started only yesterday at the Metropolis Movie Theater in Hamburg, Germany. TVBMEDIA PRODUCTIONS and SUJU-FILMS from Berlin, Germany produced the film completely independently from normal film funding. The festival version is narrated by Deutsche Welle anchor Brian Thomas. It deals with contaminated cabin air on aircraft. Further screenings in Germany and abroad are planned for the next weeks.

The author and director, aviation journalist Tim van Beveren said: *„It was a special privilege and honor for me and my crew to be part of the festival. We are very grateful for this opportunity and would like to thank the organizers. This award is a recognition and acceptance for all affected crewmembers and passengers worldwide who suffer from contaminated cabin air. It is also a tribute to those whistleblowers within airlines and aircraft manufacturers who provided sensitive and classified information and data to us. Contaminated cabin air is a dirty little secret of an extremely wealthy industry, which is only now pulled to light, against all odds. I hope now manufacturers of aircraft and their primary customers, the airlines will finally take the appropriate steps necessary to rectify this long lasting problem and provide better alternatives for cabin air systems on passenger aircraft. Also its time for the responsible politicians to abandon their sleeping beauty attitude.“*

The film was produced over the period of two and a half years. It could only be made because participants waived or referred salaries and payments. Worldwide distribution is with **Albatross World Sales GmbH**, Leipzig, Germany.
